Intermediate / Senior .Net developer

iP3 Systems is a global eCommerce software organisation with business partners and clients in Oceania, Asia, Europe, America and the Middle East.

An opportunity has arisen for an experienced (5 years+) .Net developer to work in our Auckland Office R&D team, which is based on the North Shore.

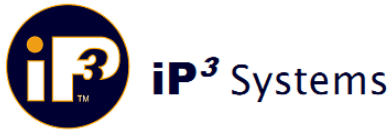

The successful candidate must possess the following Key Proficiencies

- asp.Net, C#
- (D)HTML / CSS / javascript / XML
- Building and modifying Web Services
- Demonstrable coding best practice and code architecture design skills
- Interfaces and interface design skills, e.g. to non standard DB's, payment gateways, etc.
- MS Visual Studio 2008 or later
- MS SQL Server 2005 or later
- Good communication skills (both written and verbal)
- Very good and highly evident interpersonal and teamwork skills (a team player)

We will prefer candidates that have:

- A tertiary qualification
- An affinity for Test Driven Design
- A knowledge of iterative development methodologies, especially Agile / XP
- Experience with middleware, EDI
- Experience with supply chain-relevant platforms, ERP systems, and/or EDI
- Knowledge of JADE or similar pure OO toolset
- Knowledge of GUI design
- WCF / WPF
- Familiarity with .Net version 3.5 or later
- Good presentation skills (somewhat different audiences)
- A sense of personal and organizational accountability
- A pro-active work ethic

This is an opportunity to work for a company that is part of a global partnership network and has a global vision for its product suite.
